INTRODUCTION

The world today in the global economy this review and all development trends her a state's own economy development of foreign economic inactive, while its development of active investment policy without ta could not provide knew well that without this central and long to the term m ipoll prey the key to effective investment policy the conduct of anga e ' attention needs to continue. Accordingly, in accordance with this year, this time also in foreign economy activities in home country in the way of active investment policy and flour go out to further improve a serious attention is focusing on.

This time the president of the republic of Uzbekistan Sh. Mirziyoyev for the year 2019 this is the must to the president about the priority tasks of promotional also, in reference to the large investment, "world experience k this I would state that the implementation of active investment policy from our economy has reached this

stability . Investment along with various links and the network to the area to new technology, country or the experience, highly qualified professionals come into the business is the rapid development" ¹that ta ' kidlab this tdi.

World experience on display, investment and foreign investment in national economy without creating favorable conditions active involvement, without taking digital our economy this in the world, economic environment from your failures q iyat can not integration. The maxam in This time of the country's economic foreign investment Uzbekistan involving in the process of either required to enable real- sh lipid create among city, the goal in a complex s the implementation of measures. This measure- t adbirlar h ududlarga investment ambition to more active involvement as lydda directed his be come today, gulf investment the effective a further improvement work was carried out. As a result, foreign investment in each zone in the development of Alba and the results will be achieved.

DISCUSSION AND RESULTS

In addition, the international trade policy of the republic of Uzbekistan, the country's economy policy, constitute the basic and integral part. Like any other state, is also the country of the republic of Uzbekistan of goods and services import of voters, exporters, producers and consumers in support of their activities as well as one of the most important goals of the guarantee of the republic knows that. Adopted on May 26, 2000, "on foreign economic activity". the republic of uzbekistan according to article 1 of the law, the law of the main objectives of the international economic activity of the Republic of Uzbekistan for the implementation of economic, to ensure the security, sovereignty and economic interests of the republic of protection, and integration to stimulate the development of the national economy is to create the conditions for.

The main task in the field of international trade of the country, the country's internal production and delivery process of goods in the market of local products to relieve the competitiveness of economic stability , to ensure that local manufacturers, foreign manufacturers, like this damage the interests. The market, as well as export products for working out the main purpose is to help a fellow of the local production.

You are currently in the Republic of Uzbekistan, the competition is necessary to consider if it's impossible to consider the positive results of the measures adopted by some companies and in some cases it would be based monopoly in business management could be observed. The international trade activities of the country in the implementation of its export-import operations in size, composition

and geographical location you can see the effects of. Civilized of the Republic of Uzbekistan the state of the country recognized by international legal rules and principles add to the economy of the world economy, as well as international agreements and customs union and available through the free economic zone of the other rules to follow are.

In particular, with the leading countries "Central Asia + the Russian Federation ", "Central Asia + China", S5 +1 (USA). Central Asia + as Uzbekistan, "Central Asia + Japanese " , "Central Asia+ Canada", regional within the framework of cooperation gentle on the horse in various formats in the development of active q at. This central O c leading to the foreign countries in political, trade-economy and security sphere ala q may be many years ago I t izim a basis go that k go to this rsatmokda. Modern Uzbekistan in the world and the m us under this the situation of the growing of wide within the country of forming. This reinforcement of the country in a short period mavkei the international index has been added.

Uzbekistan world bank "doing business" rating position in the state rose to 7 units to the list of indicators pricing and business among 190 8-position, best reform has entered the ranks of countries.

In particular, in years with Russia strategic partnership and cooperation strengthened significantly. 2021-year in January - September of Russia in the country's total foreign trade turnover share (18.1%) or 5.2 billion dollars. The region of Uzbekistan differs from the production of Russia, delivery of food and other products have expanded dramatically. The implementation of economic development programs and major projects in the priority area is a success.

With the initiative of Uzbekistan and the United Nations Human Security Trust Fund was established in the region of the offer Orolbuyi multilateral, regional and Central Asia region to strengthen international cooperation in the United Nations General Assembly, educational and religious tolerance, sustainable tourism and sustainable development , Orolbuyi of the region by promoting the creation of a number of important technologies on the environmental innovation regions and was accepted. This serves to further pursue practical action steps forward with the table in Uzbekistan. Since the year of 2017 for the first time in the history of relations between Uzbekistan and the US, the US high-ranking economic delegation - the Ministry of Commerce of the US, F. Bryant Mississippi state governor, US certified trade mission (2019) was carried out by. Our foreign trade turnover with the countries is 339.4 million. dollars.

Relations with Turkey, its traditions, as the Ministry of Foreign Affairs of Uzbekistan is coordinated by the Department of Cooperation with European

Countries. As a result of this visit in political, trade-economic, investment, cultural-humanitarian and other spheres results in appealing agreements have been reached. Turkey's share in the total foreign trade turnover was up 8.6 percent of the country. This will show a steady increase of developing bilateral relations between the two countries, say no if you will not be confused.

Of the Republic of Uzbekistan President Shavkat Mirziyoev on 13 April 2017 the year of "foreign trade regulation in the field of further improvement of the system of measures on" UP-5012-dated on the basis of the decree of Uzbekistan for foreign economic relations, investments and Ministry of Trade was transformed into the Ministry of Foreign Trade of Uzbekistan. This decree "in order to improve the reception of foreign trade relations, foreign trade liberalization, exports, enhance competitive local products and local expatriation further improvement of the system of the manufacturer between companies and their foreign partners long-term stable commercial relationship set.

Foreign trade policy of the country of Uzbekistan the development and implementation of state regulation of foreign trade activities is responsible for and coordinates the work of bodies.

Please tell me freely protectionism policy in Uzbekistan conclude that we always stand in the place of the main skills of the subjects of internal trade in the international competition of hcity we've come to imo, but also give us goods abroad is expensive and for this reason it can not give an answer to it than the principles of quality. Issues of the second side then it is us monopoly entities in place a solid place occupy has come to.
